DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 (p 5) defines the substituent, R4 as having the same meaning as Ra, "with the exception of hydrogen"; however, Ra is defined as an optionally substituted linear or branched C1-C12 alkyl radical, or an optionally substituted aryl group. Hydrogen is not included in the definition of Ra, thereby rendering claim 1 indefinite.

Claim 1 is further indefinite for failing to recite the conditions "leading directly to derivatives of formula I". Claims 2-16 are indefinite since they depend from claim 1.

Claim 7 is further indefinite as it recites Ora bring a group "amenable to hydrogenolysis, such as the benzyl group. It is unclear what groups applicants are limiting the claim to as many function groups may be "amenable" to hydrogenolysis. The phrase "such as" renders the claim indefinite because it is unclear if that which follows the phrase is an actual process limitation. Also, the claim recites carrying out the reduction in a basic medium when Ra is *other than* a benzyl group; however, the claim does not recite any parameters for when Ra *is* a benzyl group.

Art Unit: 1621

Claim 9 is further rejected as being indefinite for failing to recite essential method steps, said steps being the method by which a compound of formula IV or V is obtained *directly* from a compound of formula VI.

Claim 17 is indefinite because step (e) recites the formation of compound A; however, there is no compound A disclosed in the claim. The claim is also indefinite because steps (e) and (f) suggest two ring-opening steps; the examiner is unclear how that would occur.

Claim 18 is indefinite because there is not definition for substituents Ra, R3 and R4; also, it is unclear what applicants mean by "irrespective of R1 and R2" in defining the compounds C-1 and C-2.

Specification

The specification is missing a brief description of the drawings. Please amend the specification accordingly.
